PROJECTS

Enterprise resource planning system (05/2023 - Present)
- Innovative ERP system tailored for FMCG (Fast-Moving Consumer Goods) companies, streamlining operations with precision and agility. Seamlessly integrating modules for supply chain, inventory management, sales, and finance, our solution enhances efficiency and decision-making. Real-time data analytics provide actionable insights, optimizing resource allocation and reducing costs. With user-friendly interfaces and robust security features, our ERP empowers the FMCG industry to navigate complex challenges and drive sustainable growth. Transforming data into actionable intelligence, our ERP system is the catalyst for operational excellence in the dynamic FMCG landscape.

Human resource management system (06/2023 - Present)
- Revolutionize HR operations with our bespoke Human Resource Management System tailored for FMCG enterprises. This cutting-edge solution efficiently manages talent acquisition, employee onboarding, performance evaluation, and payroll processing. With intuitive interfaces and automation features, it simplifies HR tasks, allowing the FMCG company to focus on strategic initiatives. Comprehensive analytics and reporting tools provide insights for informed decision-making, fostering a collaborative and engaged workforce. Elevate HR practices, boost productivity, and cultivate a thriving workplace culture with our tailored HRM system designed to meet the unique demands of the FMCG industry.

WORK EXPERIENCE

Java Developer
Orange Antelopes
04/2023 - Present　　　　　　　*Bhopal, Madhya Pradesh*
